

LASA Voluntary Support

by MIRNA KOLBOWSKI, LASA Associate Director | mkolbowski@pitt.edu

The generous support of members, foundations, and friends continues to be critical in advancing LASA's mission by extending substantial opportunities for scholars to participate in the Association's international congresses through LASA travel grants. For the LASA2015 Congress 517 participants received some level of grant support.

Support for the LASA Endowment derives from many sources including the major portion of each LASA Life Membership. LASA currently has 110 Life Members, 11 of whom are recipients of Kalman Silvert Awards and therefore entitled to honorary Life Memberships. The Association would like to thank its newest Life Members. They are: Debra Castillo (Cornell University), Jan Flora (Kansas State University), Mneesha Gellman (Emerson College), Gilbert Joseph (Yale University), Enrique Mu (Carlow University), Patricia Murrieta Cummings (Universidad de Guadalajara), Rachel O'Toole (University of California/Irvine), Timothy Power (University of Oxford), Joanne Rappaport (Georgetown University), Strom Thacker (Boston University), Gwynn Thomas (SUNY/Buffalo), Lorrin Thomas (Rutgers University), Sinclair Thomson (New York University), Kevin Young (Rutgers University), and Manuel Antonio Garretón (Universidad de Chile), the 2015 recipient of the Kalman Silvert Award.

We gratefully acknowledge the following donors, who have contributed to LASA funds since our previous report in the winter 2015 issue of the *LASA Forum* (many individuals donate to more than one fund but names are listed just once):
